

ARCHITECT (M/F/D) AS BIM SPECIALIST COORDINATOR

Are you an architect with high technical competence in Autodesk Revit? Do you enjoy working as part of a team, working together to drive projects forward to their best solution? do you have a mind for planning processes? Then you might be our new colleague!

About the Position

We are looking for a Project BIM coordinator with a high technical competence in Revit (and Autodesk Construction Cloud) to join one of our excellent project teams. Implementing C.F. Møller Digital methods standards and best practices on a project level. Contributing to up skilling your colleagues on a project level. Supporting the team with daily technical and workflow support. You will be responsible at the project level as the Architectural specialist BIM coordinator. Additionally, you will work together with the Berlin Digital Methods Department in implementing/ supporting C.F. Møller standards and best practices. You will become part of the C.F. Møller team, where the focus is on holistic, team-oriented thinking and realizing creative ideas. You will also be part of a multidisciplinary environment in which a passion for architecture is the driving force.

Who You Are

An architect or draftsman with a high technical competence in Revit (familiar with Cloud-based models), Autodesk Construction Cloud project administration, BIMcollab Cloud and BIMcollab Zoom. You have experience/ knowledge in the German construction market (Nordic/ Scandinavian construction market knowledge is a plus). You are a highly competent Autodesk Revit user familiar with both the project and family editor environments. Among your strengths and approach are communication and engagement with your project team, willingness to learn and help others grow with you, openness, diligence and a problem-solving mindset. You have a professional level of German and English skills and are proficient in MS Office.

What We Offer

We offer a permanent position with a salary based on experience and performance, along with the opportunity to work independently and take on responsibility – potentially including company-wide tasks in the future.

You'll be part of an international team of around 300 colleagues across 7 locations and will be trained in C.F. Møller Architects' internal standards. We place great importance on your professional development. Your daily workplace will be in Berlin, but you will also travel for planning meetings within Germany and occasionally to our headquarters in Denmark.

Practical Information

Please submit your complete application documents in German or English (a compelling portfolio including a motivation letter, a tabular CV stating your possible start date and salary expectations, as a PDF with a maximum of 50 pages/20 MB) via the link below.

About Us

C.F. Møller Architects is one of Scandinavia's leading architectural firms, with over 100 years of award-winning work in the Nordic countries and worldwide. Every day, we create architectural quality based on experience, innovation, and Nordic values. This ensures sustainable and aesthetic solutions with lasting value for clients, users, and society.

A Unique Design Approach

Our designs are developed methodically and holistically based on a comprehensive analysis of the local context. We strive to set new global standards by applying a design approach that uniquely integrates urban planning, landscape, architecture, and component design.
